**MODERN PRODUCTS IN
HIGH QUALITY.**

LENI home design

In 1961, our family business started manufacturing plastic injection molded parts. For decades we have been using recycled and also recyclable material. Our core competence regarding plants is our hydroculture system for long-term irrigation. Therefore, these products follow a proven hydroculture standard. In addition, our range also offers individual planters and care accessories for plants in soil. Thus, we deal complementary with exclusive, classic and seasonal cachepots made of ceramic.

Whether you care for a small or large plant, at LENI you will find planters and care accessories in many suitable sizes.

FLORI

DURABLE AND ROBUST

FLOWER POTS

In the popular LENI Flori flower pot there is enough space for both in soil culture as well as in hydroculture find sufficient space.

Made in Germany

LENI home design

A photograph of a lush red poinsettia plant with green leaves, growing in a white rectangular planter. The planter sits on a light-colored wooden surface. In the background, a kitchen sink with a curved faucet is visible. A semi-transparent white box in the top right corner contains the text "ALSO AVAILABLE LACQUERED".

ALSO AVAILABLE
LACQUERED

In our large planter brochure we offer you the Flori Jardinière JA50 and the Corona Jardinière JA50 also with a lacquered finish.
